Mission Statement

The Osterville Village Association is a non-profit organization whose purposes include acting as a non-partisan civic organization to encourage and aid all residents, both full and part-time, of the Village of Osterville. Our goal is to work together for the best interests of the Village, and to promote its civic development and improvement.

The Association supports groups within the Village that enhance and enrich our community. The Board holds the member's dues and contributions in trust and each year distribute a significant portion of those resources as grants to village organizations, as well as, the Osterville Business and Professional Association to support their Scholarship Fund, The Osterville Brochure, and special Village days.

The OVA acts as a liaison to the Town of Barnstable. We invite and welcome at our monthly meetings, the principal officials of the Barnstable Departments of Transportation, Police, Assessment, and Planning to review and discuss community interests.
